VENSTAR®

Wi-Fi Temperature Sensors

Ultra-low power Wi-Fi

Wi-Fi

VENSTAR smart℠
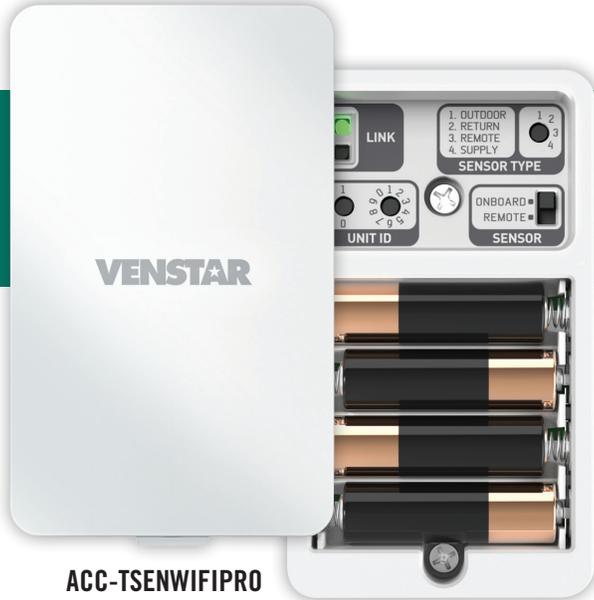

ACC-TSENWIFIPRO
5.2"H x 3.1"W x 1.4"D

- Multiple uses:
    - Remote temperature sensor
    - Outdoor temperature sensor**
    - Indoor room temperature averaging
    - Supply Air temperature sensor
    - Return Air temperature sensor
    - Walk-in refrigeration (mid temp or low temp) monitoring
- Selectable internal or external temperature sensor
- **Stainless 'external' duct sensor included**

Duct Sensor

- Compatible with most Venstar Wi-Fi thermostats*
- Easy setup using the Venstar Configurator App
- Automatic temperature averaging when multiple sensors are used
- Up to 20 sensors per subnet
- Operating temperature range:

    0˚ – 120˚ F w/alkaline batteries

    -20˚ – 130˚ F w/lithium batteries

- Dual power supply, (4) AA batteries *(included)* or 24vac
- Expected battery life: Indoor sensor sample rate of 1 per minute: > year *(Assumes strong constant Wi-Fi signal strength and connection)*.
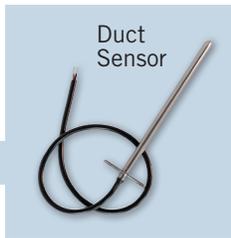

ACC-TSENWIFIMINI
2.5"H x 2.5"W x 1.0"D

- Multiple uses:
    - Remote temperature sensor
    - Outdoor temperature sensor**
- Compatible with most Venstar Wi-Fi thermostats*
- Easy setup using the Venstar Configurator App
- Automatic temperature averaging when multiple sensors are used
- Up to 8 sensors per subnet
- Operating temperature range:

    0˚ – 120˚ F w/alkaline batteries

    -20˚ – 130˚ F w/lithium batteries

- Small Size
- Uses (2) AAA batteries *(included)*
- Expected battery life: Indoor sensor sample rate of 1 per minute: > year *(Assumes strong constant Wi-Fi signal strength and connection)*.

Compatible with Venstar Wi-Fi thermostats including ColorTouch, Explorer and Explorer Mini

ColorTouch   **EXPLORER®**   **EXPLORER® Mini**

*Not compatible with T5800, T5900, T6800 & T6900
**Not to be mounted in areas receiving direct rain or snow
